Established 1878

## GLOBE DISTRICT MINING NEWS.

Development Work in the Principal Mines Continues Unabated.

### ARIZONA'S METAL OUTPUT

Black Warrior Acid Plant Nearing Completion. Columbia and Pinto Creek Copper Companies Installing Hoists—Good Reports From the Head of Mineral and Pinto Creeks.

#### LARGE ORE BODIES AT TROY.

Development work at the Troy mines is still yielding the most satisfactory results and justifying the confidence of the men who have put their money into the properties. It may be properly said now that the Troy mines have passed the doubtful period in their history and are an assured success. The work of cutting out the station at the 100-foot level of the Alice shaft was completed this week and sinking in the shaft resumed. The station, as well as the shaft, is all in ore of good grade. It will be seen from this that the Alice ore body is not of small magnitude. A five-foot vein of sulphide ore was encountered in the third level of the Climax No. 3 mine this week, and Manager Cutting now has a force of men drifting on this important discovery. This is but another of those evidences of merit which are being constantly revealed as development work progresses in the Troy group. On the Manhattan property stoping ground is being opened in the Copper Queen mine. The Sisson shaft, on the Rattler mine, one of the Manhattan properties, has reached the third level, and a gasoline hoist is being installed. With this hoist in operation sinking will progress rapidly. —Florence Blade.

#### LOCAL MINING NEWS.

Richard Welch came in town Monday from down on Mineral creek, where he has been doing assessment work on some claims that he owns.

Joe Sabourin is in town from the head of Mineral creek, where he is working on some very promising copper prospects in which he is interested.

W. E. Kennedy, secretary of the Globe-Boston Copper company, arrived from Leavenworth, Kansas, last night and will remain here for several days.

James Byrne was in town Monday from the Siebth camp, at the head of Pinto creek, to have a clamp made for the boiler of the new steam hoist on the Pinto Creek Copper company's property.

T. J. Ross, who has been running the boarding house at the Grand Prize smelter, in the northern part of this county, was in Flagstaff last week and stated that the smelter had just made a very satisfactory run.

Gib Clark came in from the Bullion Copper company's property on Mineral creek Monday, and reports that they are drifting on the vein, and are getting some ore, while the general improvement in the vein is quite marked.

F. L. Toombs came in from the head of Pinto and Mineral creeks the first of the week. He has been taking out some good ore from his property for the past three months, and will be ready to make a shipment as soon as the price of copper justifies it.

Oswald Stein and George Moran, who are assisting in sinking the main shaft on the Pinto Creek Copper company's property, were in town this week on business, while work was stopped to take down the whim and put the steam hoist in operation.

Frank Westbrook was in town the first of the week from his mining property, at the head of Pinto and Mineral creeks, attending to some mining business. He speaks very confidently of that section becoming one of the best mining districts in the territory, and he is not the only person who feels that way, as almost everyone who comes from or visits that district, speaks of it with equal confidence.

John R. Finletter was in town Monday from the Keystone group, near Oak Spring, owned by himself and H. H. Harvey. They are taking out some ore from the stope, and expect to increase their force in a short time, and if the price of copper gets fixed and they can make satisfactory terms with the El Paso smelter, they will put on all the men they can work, as soon as those matters are settled.

Supl. E. D. Adams, of the Bobtail Mine company, went out to the com-

pany's copper mines on Monday. The property is looking good and continues to improve as work progresses. Three of the men working there were sent down to the company's gold property near Ray last week, to assist in placing their new stamp mill, and will return as soon as the mill is in running order, which will be in two or three weeks.

The Pinto Creek Copper company started their steam hoist yesterday morning, and the latest report is to the effect that it is running all right. During the time that the change from the whim to the hoist was being made, considerable water accumulated in the shaft, and they expected to get it out today and resume sinking. The shaft is now down 187 feet, and when it is unwatered, the hoist can handle all the water without much trouble. The company, however, will have a pump on the ground in a few days, to use in case there should be an increased flow of water.

Dr. J. F. McArthur left this morning for Los Angeles, and expects to return here in six or seven weeks. Dr. McArthur has been quite successful in handling mining property and interesting capital in this district, and has invested considerable of his own money here, and the mines that he has disposed of, that are being worked, are proving to be good ones. He is still interested in some mines at the head of Pinto and Mineral creeks, and expects, before his return, to organize another company to develop some of them. He has large holdings of stock in the companies he has assisted in organizing, which shows his confidence in the district.

F. F. Childers, who is employed by the Columbia Copper company, at the head of Pinto and Mineral creeks, was in town this week. He states that the main shaft is down 300 feet, and has been sunk to that depth with only a whim for hoisting purposes, and that work has been stopped on the shaft until the new twenty-two h. p. gasoline hoist can be put in place. The hoist arrived on the ground yesterday, it having been on the road for about ten days, as it was moved very slowly on account of the bends in the road, which necessitated moving it with blocks and tackle in many places, and it also had to be transferred from one wagon to another while en route.

Col. James A. Fleming, president of the Black Warrior Copper Company, Amalgamated, who was in town on Wednesday, informed us that very satisfactory progress was being made in the construction of the acid works, which will be completed by February 1. The sulphide ores required for the manufacture of acid will be shipped in from Bisbee, and it is expected that acid will be made at a cost of \$10 per ton. When completed, the reduction works of the Black Warrior company will be among the finest and most complete in the west, and the company will be able to treat any kind of ore, including copper, gold, silver and lead, and turn out the refined metal.

#### Territorial and General.

Statistics carefully compiled show that 9,000 persons went to Nome this season, and that 10,200 have returned or returned, leaving about 4,000 in the district for the winter. There were eighty vessels, steam and sail, engaged in the Nome traffic, carrying from Seattle 55,000 tons of general freight. The estimated receipts for the transportation of freight and passengers are \$1,784,000, and the value of the freight shipped from Seattle \$5,500,000. About \$4,500,000 gold has been shipped from Nome this season.

Senator Penrose has introduced a tariff bill in the senate, the object of which is to protect silver mining in the United States. The bill provides for a duty of twenty-five per cent upon all silver imported into this country as ore or in manufactured form. This bill is a good and proper one. If silver is to be treated as an article of commerce—and it is so being treated—then it is only just that those producing such article of commerce be protected against foreign competition. A belief prevails that if the foreign product can be barred out of the United States through the operation of this proposed law, this country can consume all the silver it can produce. —Ex.

Mrs. L. K. Drals has named her new hotel at Troy, "Pinal House," and has fitted the place up in good style. She has had water piped into the house, and received a large new range for the kitchen this week. No one in Troy need suffer for the want of a good meal now if they have the price. —Florence Blade.

R. S. Maclay, of Globe, better known as "Bob" to his large circle of friends throughout the territory, is a visitor in Bisbee. Mr. Maclay was assistant chief clerk of the council in both the Twentieth and Twenty-first legislatures, and is prominent in the politics of Gila county. —Bisbee Review.

## PIONEER HOSE' NEW HOME.

Completion of the Building. A Substantial Structure and Desirable Public Improvement.

The new building which is to house Pioneer Hose company was finished last week, and it is a home which the company, and the citizens of Globe as well, have reason to be proud of. The building occupies a central location on the rear end of the hospital grounds, half a block from Broad street. The structure, which covers a ground space of 30x20 feet, is two stories in height, the first story being 10 feet and the second 14 feet in the clear. The bell tower rises from the roof near the front of the building to a height of 45 feet from the ground.

The room on the ground floor is amply large to house the two hose carts, 950 feet of hose and other fire apparatus, while the upper hall is desirable as a meeting place for the company, and the intention is to fit it up for a gymnasium, and to organize a club from among the fire company members and others who may wish to join.

The building was erected by a force of competent workmen, superintended by J. N. Star, and is a credit to their skill and faithful performance. All that now remains to be done is to put a ceiling in the upper room and paint the building, which will be done as soon as funds are available. The fire apparatus will be moved to the new quarters next Sunday.

On Saturday evening next Pioneer Hose company will give a house-warming in the new building, invitations being limited to the wives and daughters, or sweethearts (as the case may be) of the members. It promises to be an enjoyable occasion.

At the regular meeting of Pioneer Hose company last Monday evening, the old officers were re-elected. Wm. Rolling was chosen president for the fifth time, a compliment which he fully appreciates and richly deserves. The other officers are: Ed Stewart, secretary; Wm. Winters, treasurer; J. N. Star, captain; Cyril Byrne, foreman.

#### Output of Arizona Mines.

The year in Arizona has been one of marked progress and enormous gains have been made in the output of gold and silver. The prosperity has been most marked in Yavapai county, Globe and the Clifton district. The copper product of Arizona has followed the lead of other great copper producing states, and has remained practically stationary. The aggregate output of the territory, however, is \$2,783,210 in excess of the output for the year 1900. The territory has relatively increased its position as a copper producer as against the year 1900. It is now very close to being the second copper producer in the Union. Our estimate of the mineral output of Arizona, although subject to revision, is as follows:

Gold	\$ 4,200,000
Copper	17,687,500
Silver	3,000,000
Lead	375,000
Total	\$25,172,500
Output for 1900	\$22,589,250
Increase	\$ 2,583,250
Per cent	11.4

The year 1901 has witnessed many rich finds of mineral, chiefly in the neighborhood of Prescott and Wickburg. Many improvements have been made in the equipment of the copper mines so that lower grades of mineral can be handled. Long famous as a great copper producer, Arizona bids fair to assume the lead. —Denver Mining Reporter.

#### The El Paso Drilling Contest.

The miners' drilling contest at El Paso excited as much interest as any event of the Carnival, as far as heard from, yet the reports as to who were the victors in the double-handed contest are in direct conflict. The El Paso News states that the Tarr brothers of Globe, broke the world's record, in Gunnison granite, with forty and three eighths inches, while the El Paso Times states that it was Chamberlin and Malley of San Pedro, N. M., who broke the record on those inches, and that the Tarr brothers drilled into an old hole and would have to drill again yesterday, after all others had finished. A telegram received last night by Will Sullivan from T. H. Tracey, states that Chamberlin and Malley had won first money with forty and three eighths inches, and the Tarr brothers second money with forty and five sixteenths inches, losing by one-sixteenth of an inch. The Tarr brothers were the greatest favorites, and all Globe would rejoice if the first report was true.

John L. Alexander, of Fort Thomas, has been spending a few days in town on business connected with the Globe Commercial company, in which he is interested. He leaves for the valley in the morning, but will return here again in a few days.

S. B. Henderson, a former member of troop B of the Rough Riders, is in the city from Globe, shaking hands with old friends. —Phoenix Republic.

## LOCAL NEWS OF THE WEEK

Many Items of Interest Gathered for Readers of the "Silver Belt."

### FIRE COMPANY'S NEW STATION

Installation of Officers by Wenonah Council, Sultana Rebekah Lodge and Alexander Relief Corps—Many Visitors in Town During the Week.

Ramon F. Borquez has opened a barber shop north of the bridge, in one of G. S. Van Wagenen's buildings, opposite Middleton & Co.'s blacksmith shop.

The Tarr brothers, who work at the Copper Hill mine, were the only miners who went from this camp to compete for the prizes in the rock-drilling contest at El Paso.

The committee on territories of the house of representatives have fixed January 31 as the day for hearing the arguments and petitions on the question of statehood for Arizona.

The improvements on the front of E. F. Kellner & Co.'s store are about completed. The change makes the largest and most attractive front on any business house in Arizona.

The engine for the new ice plant arrived yesterday and is being put in place today. It is a Vilter engine, manufactured in Milwaukee, Wis., and has a ten-foot flywheel.

The many friends of Miss Blanche Heath will regret to learn of her decision to return to her home in Los Angeles. She expects to leave Globe a week from next Monday.

M. P. Edinan and family, formerly of Globe, but recently from El Paso, spent last Friday in Yuma as guests of their old Globe friends, R. L. Handee and Attorney Robertson—Sentinel.

J. P. McNeill will soon open a tin shop, hardware and second-hand store in the building formerly occupied by F. H. Christy as a carpenter shop, on the north side of the bridge, opposite the Miners' union building.

As there were no special railroad rates from here to Bowie, the correct number of Globe people who went to El Paso to attend the Carnival cannot be obtained, but it is stated that there were about fourteen in all.

Mrs. Maggie Willis, nee Fuller, has been here for more than a week visiting relatives, and was joined a few days since by her husband, W. M. Willis, who is manager of the Indian Hot Springs hotel, near Fort Thomas.

H. Arnold, who is interested in and represents the Crown Distillery Co. of San Francisco, and sells the Cyrus Noble whiskey, is on his quarterly visit to this section, which visits he has hardly missed making for over twenty years.

The Indian who killed Corporal Irish, an Indian policeman, several weeks ago near Wilcox, was captured near Rice recently and is now confined in the guardhouse at San Carlos. He will have his trial in the district court of Graham county.

Prof. Henry Holmes, who gave a violin recital here recently, is reported by the San Francisco Chronicle of the 13th inst., to be suffering from pneumonia, with which he was taken down after returning home from Globe. Owing to his weak heart, recovery was considered impossible.

J. W. Ransom returned Tuesday night from San Carlos, where he had been for several weeks assisting W. O. Kellner in taking stock and rearranging the store of E. F. Kellner & Co. W. O. Kellner was recently appointed postmaster, and the transfer entailed much additional work.

Judging from the article on the sixth page of this issue of the BELT, regarding Joe Emmons, it seems that they have skunks in Chicago as well as Arizona, but they are a different kind of animal, as they attack the credulity and make your pocketbook have the rabies.

T. E. Southlee is here from Morenci spending a few days among old friends. He notes with some surprise the growth and improvement of Globe since he was last here. Tom is employed in the Detroit Copper company's fine store at Morenci, and is just now taking a well-earned vacation. Morenci is fast becoming a model town. The company's store is said to

be the finest department store in the territory. A library and gymnasium was recently completed, and the company is now preparing to erect an hotel to cost \$50,000.

J. H. Baker, Sr., of Salt river, was in town yesterday settling up the estate of his son, who was killed in a mine on the Sierra Ancha last June. He owns a ranch on Coon creek, and at one time had a potato ranch on the Sierra Ancha from which he furnished the community with an abundance of fine potatoes.

A "spiderweb" party was given last Monday night by Mr. and Mrs. A. N. Nottger at their home in North Globe. This is something new and novel in the way of entertaining your friends, and is highly interesting and amusing. Those who attended pronounced the occasion one of the most enjoyable of the season.

The Tempe News says that Harry Shute, one of Gila county's popular young cattlemen, was in that burg for several days this week, buying graded stock for his ranges. Gila county ranges seem to be in pretty good shape this year, and cattlemen are feeling good over the outlook and feel like improving their stock.

A notice from the probate judge in this issue of the BELT, calls the attention of lot owners in the North Globe townsite to the fact that they must file a statement of their claim to a lot or lots within ninety days from the date thereof, in order to obtain a title to the property.

Nearly every city and town in the southwest is having a superabundance of "hobos," who come from the north to the south, where the climate suits their clothes better, but from reports, they are kept moving from place to place by the authorities. It seems that Globe is getting a few of them.

W. H. Mercer has been on the sick list for several days. While out at camp on the Woodson and Beard property he contracted a cold and a case of the grip, the cold settling in his eyes, inflaming them so badly that he could scarcely use them for three or four days. He was well enough, however, to go out to camp the first of the week.

On Friday night three Mexicans got into a row in a saloon in the north part of town, and after being quieted down by the proprietor, two of them laid for the third one, on the outside, and pounded him with a bottle and their fists until he was pretty badly used up. The assailants were arrested, and on Tuesday had a hearing before Justice Rawlings, who sentenced them to serve twenty days each in the county jail.

The work on repairs of the St. Paul M. E. church will be completed Saturday of this week, but fearing that the paint and varnish will not be thoroughly dry upon the interior, it is thought best by the pastor not to reopen the building next Sunday. Therefore, the Sunday school will be held in Salvation Army hall next Sunday at 10 a. m. The services in the church will be resumed Sunday, January 25.

An agent of the Chapman Publishing company, of Chicago, has been in town this week delivering copies of a "Portrait and Biographical Record of Arizona," commemorating the achievements of citizens who have contributed to the progress of Arizona and the development of its resources. The book contains over 1,000 pages, and has in it many portraits of men and women who have been prominent in Arizona, and gives brief sketches of their careers; all of which were doubtless prepared and paid for by those who were most familiar with the lives of those alluded to; and it is stated that some of these write-ups came pretty high, as the price of the book itself is \$20, notwithstanding which fact, a number of them were delivered in Globe.

### AN ENJOYABLE AFFAIR.

Wenonah Council Install Officers and Entertain Their Friends.

Wenonah council, degree of Pochontas, gave a public installation of officers and a social in their handsome lodge room in Odd Fellows' building on last Friday night. A large number of invited guests were present, and the installation ceremonies, as well as the excellent literary and musical program following them, were highly interesting and enjoyable. The new officers were installed by Mrs. Temple, deputy great prophetess, assisted by Mrs. Lois Gundelach, deputy great scout.

The officers for the ensuing term are: Prophetess, Mrs. Julia Taylor, Pocahontas, Mrs. J. Martin, Wenonah, Mrs. Nesbitt, Minnehaha, Mrs. Oates.

K. of R., Mrs. Temple. Coll. of Wampum, Mrs. Gundelach. K. of Wampum, Mrs. Merritt. First Scout, Mrs. Keegan. Second Scout, Mrs. House. First Runner, Mrs. Frush. Second Runner, Mrs. Terry. First Warrior, Mrs. Star. Second Warrior, Mrs. Mueller. Third Warrior, Mrs. Cornelius. Fourth Warrior, Mrs. Crawford. First Councillor, Mrs. Pennington. Second Councillor, Mrs. O'Brien. Guard of Tepee, Mrs. Goodwin. Guard of Forest, Mrs. A. R. Edwards.

Owing to the length of the program of recitations and music we can only briefly mention the several numbers, which were all deserving of praise:

Song—"Larbord Watch Aboy," Messrs. Harris and Hynes; Miss Kenyon accompanist.

Violin duet—Prof. Vincent and son. Piano duet—Misses Heath and McIntire.

Piano solo—Miss Hazel Keegan. Reading—"A Touch of Nature," Mr. L. Tulloch.

Song—"You Are My Honeysuckle," Miss Julia Woods; encored.

Recitation—"A Sioux Chief's Daughter," Mrs. A. R. Edwards.

Recitation—"The Twins," Misses Ethel and Edna Temple.

Song—Mrs. J. N. Star.

Recitation—"Baptizing the Twins," Mrs. Lois Gundelach.

Recitation—T. F. McCann; encored.

The program concluded, light refreshments were served and dancing and social converse filled in the time very pleasantly until midnight.

The entertainment was in every respect an enjoyable one, such as the ladies of Wenonah council are noted for. The council has a large and growing membership and is recognized as one of the foremost social organizations of Globe.

### THE REBEKAHS ENTERTAIN.

Installation of Officers and Social Given by Sultana Rebekah Lodge.

On Tuesday evening last, in their lodge room, Odd Fellows' building, Sultana Rebekah lodge installed the officers elect, before a large audience comprising many ladies and members of Rescue lodge. The installing officer was Mrs. Martha K. Wiley, who was ably assisted by the following grand officers: Mrs. Addie Briggs, marshal; Mrs. Delia M. McNelly, warden; Mrs. Ida McNelly, secretary, and Mrs. Carrie Hitchcock, treasurer.

The new officers are:

N. G., Miss Minnie Thompson.

V. G., Mrs. Cammie Armstrong.

Treasurer, Mrs. Ellen Hill.

Warden, Mrs. Sarah Star.

Conductor, Miss Maud Kenyon.

I. G., Mrs. Elvera Middleton.

O. G., Miss May Cauley.

R. S. N. G. Mrs. Addie Briggs.

L. S. N. G., Mrs. Mollie Moore.

R. S. V. G., Mrs. Martha K. Wiley.

L. S. V. G., Mrs. Rovilla Crampton.

Chaplain, Mrs. Carrie L. Thompson.

R. S. S., Mrs. Clara Armer.

L. S. S., Miss Nellie Allen.

After a very interesting ceremony, a program of recitations and musical selections was rendered, as follows:

Trio—"O Rose So Sweet, O Rose So Fair," Mrs. H. B. Paul, Mrs. M. C. Taylor, Miss Heath.

Recitation—G. O. Wright.

Vocal solo—Miss Heath.

Address—Rev. F. S. Eastman.

Recitation—T. F. McCann.

Vocal solo—Mrs. H. B. Paul.

Recitation—Mrs. Ellen Hill.

At the conclusion of the program the company mingled in social converse and discussed a very appetizing lunch. Sultana Rebekah lodge has attained a very enviable place in the social life of Globe, and we are pleased to note its progress.

### Relief Corps Installation.

Alexander Relief corps, No. 2, installed officers on Tuesday as follows: President, Mrs. Della M. McNelly; S. V. P., Mrs. Sarah A. Star; J. V. P., Mrs. Katie Dinsmore; Treasurer, Mrs. Alice W. Newton; Chaplain, Mrs. Alma L. Banker; Conductor, Mrs. Mollie Moore; Guard, Mrs. Ida McNelly; Assistant Conductor, Mrs. Flora I. Hamill; Assistant Guard, Mrs. Martha A. Cramer; Secretary, Mrs. Lois E. Gundelach; 1st C. B., Mrs. Alice E. Fox; 2d C. B., Mrs. Carrie L. Thompson; 3d C. B., Mrs. Nellie B. Steffy; 4th C. B., Mrs. Jessie Fox; Organist, Mrs. Florence Middleton.

The SILVER BELT is always pleased to make mention of this patriotic and charitable organization, which should receive every encouragement. The corps now has a membership of fifty.

Walter Webster was thrown from a horse on Sunday, near the BELT office. It was thought he was severely hurt and he was taken to the hospital, but his injuries were slight and he was out the next day with but a little lameness.
